

POWER InDust 60 TP M/H

COMPACT, POWERFUL AND DURABLE: THE THREE-PHASE INDUSTRIAL VACUUM CLEANER FOR GREAT PERFORMANCE IN NARROW AREAS

The **POWER InDust 60 TP M/H** vacuum cleaner features an electronically balanced, side channel turbine with the fan directly mounted on the crankshaft. The absence of transmission devices makes the suction unit not only silent and powerful, but it also allows continuous use (h 24) without any need for regular maintenance. The magneto-thermal motor protector, allows the turbine to operate properly in any condition. The vacuum gauge, thanks to a constant monitoring of the air depression level, is able to detect the level of clogging of filters or of other parts of the suction system.

A large surface area (2 m²) and high filtration capacity pocket filter allows the dust to be retained while, at the same time, ensuring an excellent air quality output. In addition to that, the practical, manual filter shaker ensures an extremely long filter life, avoiding clogs, saturation and the reduction of the filtering capacity. The quick-release recovery container and the sturdy tray equipped with non-marking wheels make the vacuum cleaner extremely easy to use.

POWER InDust 60 TP M/H is available in three phases version and M or H class certified versions.

PRODUCT IDENTIFICATION

POWER InDust 60 TP M
POWER InDust 60 TP H

REF. NO.

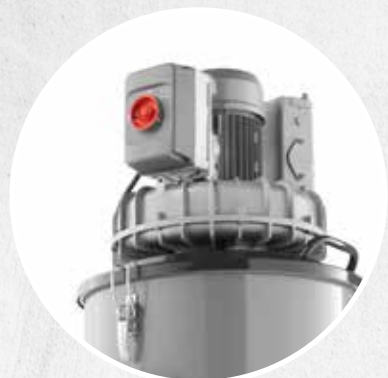

12158800011
12158800021

TECHNICAL DATA

Power	W	2200
Capacity	l	60
Filter		Polyester star filter M (Cartridge HEPA H)
Filtering surface	m ²	2 (M)/ 2,6 (H)
Filtration class		M-H

Airflow max	l/s	92
Depression	mbar	180
Weight (without accessories)	Kg	80
Dimensions	mm	700x730x1700

POWER InDust 60 TP M/H

QUIET AND POWERFUL

Absence of transmission devices: direct-drive side channel turbine on the crankshaft

POCKET FILTER MADE OF POLYESTER

In order to guarantee a high filtering capacity

FILTER CLOG CHECK

Air depression monitoring thanks to the standard vacuum gauge

MANUAL FILTER SHAKER

Practical and vertically movable, it allows the operator to clean the filtering system in a quick and easy way, enabling the filter to benefit from a longer lifetime

STURDY TROLLEY

Made of powder-coated steel, equipped with non-marking swivel castors and parking brake to ensure the best ease of transport and the best manoeuvrability while in use, especially in narrow areas

ACCESSORIES

A wide range of optional accessories enables the operator to use the vacuum cleaner in an extremely flexible way throughout different ranges of application

OPTIONAL ACCESSORIES

TYPE	REF. NO.
Flexible hose 3 m	01-510
Adjustable dry brush	6010052
Adjustable dry brush 0,50 m	6010062
Curved extension tube ø 50	2511700
Round brush	2511720
Crevice tool	2511730

TYPE	REF. NO.
Connection Ø 80/50	2501315
Textile filter (*)	3001238
H class HEPA Cartridge filter (**)	2512717
Flexible hose 3 m	6010711
Stainless steel dry and wet/dry thickener separator	1897006
