

Professional Cleaning Equipment

# Heros Fire service vacuum

Powerful, compact and equipped with the latest technology.

### Suggested Use

Pumping out of water after floods, fire damage restoration, tube damage, flat roof refurbishment, pond or pool cleaning and other cleaning tasks.

This modern professional vacuum pump is specifically designed for fire brigades and federal agencies for technical relief (THW), and long-term use with all types of floods and high water. Contaminated wastewater, sludge, stones, wood and other non-flamm-able solids and suspended matter can be efficiently sucked away. Featuring a range of close to 20 metres, emphasis is on the highest degree of safety and performance.

The Heros comes with IP 68 connectors with bayonet retaining rings and protective covers, safety switches and an IP 54 socket as standard.

The impact-resistant and compact plastic tank allows optimum mobility with a low overall weight of only 19 kg. Further standard fittings such as the separate connectible pump, solid rubberised wheels with practical locking brakes, and fire brigade-approved Storz coupling provides you with a reliable partner at your side.

TECHNICAL DATA	
Voltage	230 V / 50 Hz
Total power	2200 W
Power consumption (device)	1300 W
Power consumption (pump)	900 W
Suction capacity	150 l/min
Max. Suction	230 mbar
Volume flow rate	70 Liter / Sek.
Pump capacity	14.000 Liter/h
Pumping head	9 m
Container material	plastic
Container volume	45 litres (gross)
Wastewater connection	c-tube
Length of vacuum hose	7 m
Length of discharge hose	10 m
Diameter of hose	38 mm
Diameter of tubes	38 mm
Particle size	20 mm
Length of power cable	10 m
Weight	19 kg
Dimensions (L x W x H)	49 x 44 x 77 cm

- ① Wastewater dump hose for complete drainage of the tank.
- ② The locking brake prevents the vacuum from accidentally rolling away.
- ③ Stable chassis of shock-resistant plastic with removable handle.

450-mm metallic base jet with extremely robust die-cast aluminium housing including adjustable castors for setting the clearance.  
Item.-no. 102.051

The powerful pump inside the vacuum cleaner has a capacity of up to 14,000 litres of wastewater translocation per hour.

10-metre wastewater hose with aluminium C coupling. Connection for fire brigade and THW hoses.

The filter net protects the pump from leaves and other coarse particles.  
Item no. 110.048

Standard crevice nozzle  
Item.-no. 102.016

Safety as standard:

- ① IP 54 socket.
- ② IP 68 connector with bayonet retaining ring and protective cap.
- ③ FI-safety switch.

HEROS		Item no.
2 x 0,5 m suction tubes stainless steel ø 38 mm, 7 m suction hose, 10 m discharge hose, integrated wastewater pump, filter net with zipper, crevice nozzle 240 mm, Metal floor nozzle 450 mm		113.001
STANDARD KIT:		
Vacuum tubes, stainless steel (1 piece)		102.018
Metal floor nozzle 450 mm		102.051
Crevice nozzle		102.016
Filter net		110.048
7 m suction hose		110.049
10 m suction hose extension		110.053
Power cable incl. GFCI interrupter		110.072
